**Industry Functional Advisory Committee on Standards (IFAC 2)
Advisory Committee Report to the President, the Congress and the United States Trade
Representative on U.S. - Singapore Free Trade Agreement**

I. Purpose of the Committee Report

Section 2104 (e) of the Trade Act of 2002 requires that advisory committees provide the President, the U.S. Trade Representative, and Congress with reports required under Section 135 (e)(1) of the Trade Act of 1974, as amended, not later than 30 days after the President notifies Congress of his intent to enter into an agreement.

Under Section 135 (e) of the Trade Act of 1974, as amended, the report of the Advisory Committee for Trade Policy and Negotiations and each appropriate policy advisory committee must include an advisory opinion as to whether and to what extent the agreement promotes the economic interests of the United States and achieves the applicable overall and principle negotiating objectives set forth in the Trade Act of 2002.

The report of the appropriate sectoral or functional committee must also include an advisory opinion as to whether the agreement provides for equity and reciprocity within the sectoral or functional area.

Pursuant to these requirements, the IFAC 2 hereby submits the following report.

II Brief Description of the Mandate of IFAC 2

The Committee shall perform such functions and duties and prepare reports, as required by Section 135 of the Trade Act of 1974, as amended, with respect to the sector and functional advisory committees.

The Committee advises the Secretary and the USTR concerning the trade matters referred to in Sections 101, 102, and 124 of the Trade Act of 1974, as amended; with respect to the operation of any trade agreement once entered into; and with respect to other matters arising in connection with the development, implementation, and administration of the trade policy of the United States including those matters referred to in Reorganization Plan Number 3 of 1979 and Executive Order 12188, and the priorities for actions thereunder

In particular, the Committee provides detailed policy and technical advice, information, and recommendations to the Secretary and the USTR regarding trade barriers and implementation of trade agreements negotiated under Sections 101 or 102 of the Trade Act of 1974, as amended, and Sections 1102 and 1103 of the 1988 Trade Act, which affect the products of its sector; and performs such other advisory functions relevant to U.S. trade policy as may be requested by the Secretary and the USTR or their designees.

III. Negotiating Objectives and Priorities of IFAC 2

The IFAC 2 did not advance any priorities or negotiating objectives at the beginning of these negotiations.

IV. Advisory Committee Opinion on Agreement

The IFAC 2 has deliberated over the final text of the U.S. - Singapore FTA, and the committee has limited its comments to the section that specifically addresses Technical Barriers to Trade. To the extent that the TBT text reflects WTO provisions it is acceptable, but IFAC 2 would not recommend the Singapore FTA text as a model for future FTAs.
